### Description

GFP-LED is an LED troffer luminaire designed for installation in 1x4, 2x2 and 2x4 conventional suspended grid ceilings for new construction or retrofit projects. Featuring superior, evenly dispersed lighting that sets the standard in performance for solid state ceiling luminaires, the GFP can also significantly reduce the number of fixtures needed to light a given area. Custom fixture and power supply kit design allows for quick and easy installation, reducing costly labor time. The superior thermal design will extend both the life of the fixture and power supply. While still emitting 70% of the original light output after more than 100,000 hours, SFP-LED will last many years without the need for costly replacement or maintenance.

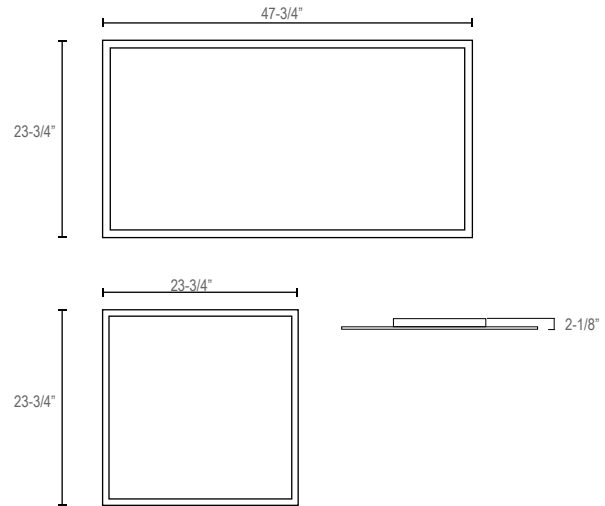

### Features

- Recommended for offices, schools, hospitals, medical facilities and other commercial and institutional applications
- Finished Color: White and Silver
- Housing: Extruded aluminum frame
- Lens Type: Frosted polycarbonate diffuser
- Choose the perfect lumen output using Select-a-Watt Technology
- IP44 damp location rated
- 0-10v dimming standard
- Beam Angle 120°
- CRI 85
- Power Factor 0.95
- Operating Temperature: -20~40°C (-4~104°F)
- UL and cUL Listed
- CE Listed
- RoHS compliant
- DLC Listed (Please see matrix on 2nd page)
